

Example of Teacher Tub for Newcomers

We pre-made about 10 sets of each of these and have our teachers check them out. We mainly have Spanish/English but are working towards other language supports as needed when we get new students.

In the Tubs:

- Spanish-English Classroom Labels
- Spanish-English Math Vocabulary
- Spanish-English Math Key Words
- Student Resource Folder(s)- Different depending on grade-base ten, number words, verbs, adj, shapes, alphabet etc.
- Newcomer Packet 6 units bought on TPT
- Common Phrases English/Spanish-Created by Amy Blakeney
- Spanish-English Scholastic Books-Also use Time for Kids, or any books we can find that are bilingual
- School Word sheet-English/Spanish

*****Remember these are just some ideas what to put in a tub to support your teachers when new students arrive. Find out what your teachers are needing! We created some of these, found some supports on the internet and combined them altogether to make a tub and resource folder to use easily and quickly. Let us know if you have any questions*****
